★ All Star ★

Deer Feed, Inc.

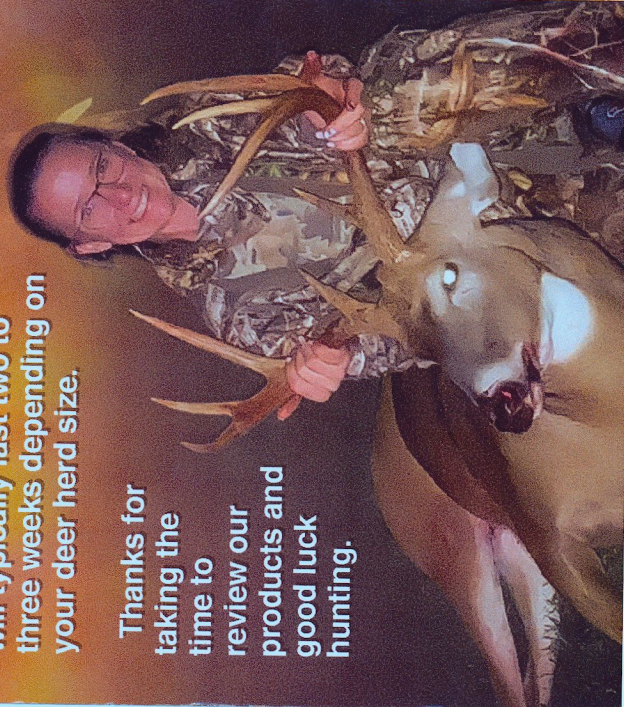

All-Star Deer Feed LLC was developed to give the deer everything they need to reach their full genetic potential in the wild. All of our legendary whitetail feed mixes are infused with essential vitamins and minerals that benefit all deer, bucks as well as pregnant and lactating doe.

Our legendary whitetail deer mineral is among the best in the industry. It is loaded with high levels of essential vitamins and minerals as well as all natural deworming agents to help fight off unwanted parasites.

Our legendary whitetail extreme protein feed additive is a high protein feed topper, with an extremely high 32% protein. Extreme protein is also infused with minerals and an all natural dewormer as well.

Our 30 LB Legendary Whitetail TNT feed block was developed for those hard to reach places or in front of your trail camera in your favorite spot. The TNT feed block will typically last two to three weeks depending on your deer herd size.

Thanks for taking the time to review our products and good luck hunting.

Legendary Whitetail Deer Mineral

Minerals are essential for whitetail deer, Especially antler growth and overall health. Deer need a variety of minerals including calcium, phosphorus, copper, zinc, selenium and sodium. Our mineral is packed with essential vitamins and minerals and has a powerful long distance cherry aroma. This mineral also contains an all natural deworming agent. If you use this mineral all year long, I guarantee you'll see results!

Legendary Whitetail Extreme Protein Feed Additive

This product is designed to increase the protein of any feed. Extreme protein contains 32% protein and is crucial for whitetail deer as it is essential for their overall body maintenance, growth, reproduction, lactation and most notably antler development. A diet with sufficient protein is necessary for male deer to produce antlers that reflect their genetic potential.

Legendary Whitetail TNT Feed Block

This feed block is made in house using all of our own feed and minerals. This block works outstanding alone or with other feeds. It weighs roughly 30 lbs and will last two to three weeks depending on your herd size

Legendary Whitetail Mix with Mineral

This feed works best in gravity feeders.

Legendary Whitetail Deer Crunch with Mineral

This feed works well in all feeders or poured directly onto the ground
